951.801.0368

Product designer for web and mobile. I design thoughtful interfaces, motion and design systems, and use AI tools like Claude Code to take ideas from first sketch to something real.

Experience

Willow Laboratories

Visual Designer III (Product Designer) — Apr 2026 – Present
Visual Designer II (Product Designer) — Apr 2023 – Apr 2026
Visual Designer I (UI/UX Designer) — Dec 2021 – Apr 2023

- Design web and mobile experiences across consumer health and medical-related products, from early concepts through implementation.
- Recent work includes the Goals and Future You features for nutu, a metabolic health app.
- Work with PMs, engineers, and health experts to define user flows, interactions, logic, and edge cases.
- Contribute to design systems and create motion, animation, and 3D visuals.
- Use Figma and Claude Code to create working prototypes and explore interactions.

Palazzo Salon / Web Designer (Freelance)

2023

- Worked with the owners on their requirements and organized the site around what clients ask: services, prices, stylists and location.
- Designed and built a responsive Squarespace site the team can update on their own.

Carrera Effect / Brand & Web Designer (Freelance)

2019 – 2020

- Redesigned the client's website and created branding, promo pieces and merch for digital and print.

C.S. Lewis Study Center / Graphic Designer

2019 – 2020

- Designed email campaigns, visual assets and branding aligned with the organization's mission.

Education

California Baptist University

BA in Graphic Design (Visual Experience)

- Graduated Magna Cum Laude
