Experience

Willow Laboratories / Product Designer

DEC 2021 – PRESENT

- Design UI/UX experiences for web and mobile healthcare products, focusing on creating interfaces that feel intuitive, clear, and visually polished.
- Collaborate closely with developers and cross-functional teams to turn ideas and workflows into thoughtful digital experiences.
- Create wireframes, user flows, prototypes, high-fidelity designs, and scalable UI patterns across multiple products.
- Develop motion graphics, animations, and interactive elements that improve usability and bring more personality to the product experience.
- Help maintain and evolve design systems to support consistency across platforms and features.
- Design and render 3D visuals and assets to support product storytelling, branding, and marketing experiences.
- Continue expanding into front-end workflows and AI-assisted tools like Claude Code to strengthen design-to-development collaboration and rapid prototyping.

Palazzo Salon / UI/UX Designer (Freelance)

2023

- Redesigned website to improve user experience and brand representation.
- Developed a modern, responsive layout using UI/UX best practices.
- Ensured cohesive branding across digital platforms.

Carrera Effect / Product & Brand Designer (Freelance)

2019–2020

- Redesigned client's website to enhance user experience and brand consistency.
- Developed branding materials, promotional items, and merchandise for digital and print use.

C.S. Lewis Study Center / Graphic Designer

2019–2020

- Designed and implemented email marketing campaigns.
- Developed branding strategy and visual assets to enhance digital presence.
- Created content strategies aligned with the organization's mission.
